FOUNDRY TRADE JOURNAL INDEX
VOLUME 155
JULY—DECEMBER 1983

A

Aerospace Technology, Midlands Foundry uses, 376
Agricultural Ironfoundries in the Nineteenth Century, 555
Alloying Elements in Cast Irons, Use of, 104
AOD Refining copes with Difficult Foundry Scrap, 355

B

Battelle to study Evaporative Casting, 447
Belgian Foundry built on Quality, Picanol—a, 507
Belgian Foundry Industry well-supported by Technical and Trade Associations, 497
Belgian Foundries Worldwide, Fabrimetal represents, 512
BICTA holds Successful Teach-in, 213; BICTA Jubilee, Seventeenth Annual Conference marks, 595
BNF Seminar highlights Energy Conservation Techniques, 8
British Rail's In-house Non-ferrous Casting Facility, 26
Brno, Eastern European Foundry Technology on show at, 301

C

Cast-iron Bogie Production at Standard, Brass, Iron and Steel Limited, 37
Cast-steel Bogie Production at Standard Brass, Iron and Steel Limited, 37
Ceramic-fibre Lining cuts Fuel Consumption, 572
Clay Cross invest £1 million in New Foundry Plant, 348
Cleaning Investment Castings the Chemical Way, 266
Cokeless Cupola cuts Pollution Control Cost, 166
Coke Works, Market Collapse closes South Wales foundry, 336
Computerised Methoding at SCRATA—from Conception to Crusader, 451
Continuous Casting Trials of Silmour Dies, 365
Conveying improves Foundry Environment, Low-noise, 471
Copal Foundries instal New X-ray Facility, 534
Coremaking Machines Worldwide, Loramendi markets, 298
CO_2 Pulsed Gassing promotes Iron-castings Demand in Merseyside, 563
Cutting Inserts are Key to Faster Stock Removal, Jumbo-sized, 422
Czechoslovakian Progress in Cast-Metal Technology, 4

D

DoI institutes Non-ferrous Foundry Statistics Study, 136
Deritend Precision Castings in Group Reorganisation, Specialised Role for, 579
Diecasting Machinery demonstrated at Fondex 83, 317
Diecastings Limited, Open Day at, 122
Diecasting Society Seminar discusses Quality Consciousness, 117
Duport Harper casts S.-g. Iron for International Market, 392
Dutch Agricultural Equipment Manufacturer, Reaping the Benefit of Investment—a Profile of a Leading, 502
Dutch Foundry Industry re-structured during Five-year Programme, 511

E

Electric Melting and Holding, Some Recent Developments in, 462
Eastern European Foundry Technology on Show at Brno—a Report on Some New Equipment, 301
Electric Melting and Holding, Some Recent Developments in, 462
Electroforming Process for Patternmaking, The, 54
Engineering Industry Training Board highlights Growing Importance of Technicians, 475
Environment, Low-noise Conveying improves Foundry, 471
European Castings and Forgings Exhibition: 81; 212; 370
Evaporative Casting, Battelle to study, 447

F

Fatal Injuries caused by Molten Metal Ejection from a Furnace, 458
Fabrimetal represents Belgian Foundries Worldwide, 512
Fondex 83: New Diecasting Machinery demonstrated at, 317; demonstrates Czechoslovakian Progress in Cast Metal Technology, 4
Furnace for the 80s, A, 93
Furnace, Some Factors in Selecting a Melting, 143

G

George Blair plc—a Profile of a Company's Lifetime Involvement with Castings for the Railway Industry, 35

H

Health & Safety at Work Exhibition—a Preview, 1983, 530
HSE Health and Safety at Work Statistics published, 347
High-strength Zinc Alloys challenge Cast Iron, 85
Howmet, A Company for the Space Age—Misco European Division of Howmet visited, 247; Howmet Alloys supply the Aerospace Industry, 602

I

IMI Precision Diecasting, Toolmaking Expertise is Key to Success at, 191
Induction Melting reduces Costs at Scahill Foundry, 162
IBF: Sheffield IBF elects Council; Metabrasive hosts IBF Works Visit, 347; IBF London Branch, 425
Investment Casting—a Robot Success Story, 345
Investment Castings the Chemical Way, Cleaning, 266

J

Jumbo-sized Cutting Inserts are Key to Faster Stock Removal, 422

L

LMFA: News, 215; LMFA produces Guide to Foundry Safety, 376
Lining cuts Fuel Consumption, Ceramic-Fibre, 472
Lister & Company Limited, The Foundry of R.A., 287
Loramendi markets Coremaking Machines World-wide 298
Low-noise Conveying improves Foundry Environment, 471

M

Manipulators and Robots ease the Founder's Burden, 339
Meehanite Research and Development, Advancing through Innovation—The Role of, 413; Melting and Holding, Some Recent Developments in Electric, 462
Melting Furnace, Some Factors in Selecting, 143
Melting Modernisation at Darwins Alloy Castings, Major, 63
Metabrasive improve Productivity and Materials Handling, New Facilities at, 566
Metals Society to discuss Submarine Corrosion, 213
Metals Society to merge with Institution of Metallurgists, 83
Misco European Division of Howmet visited, A Company for the Space Age, 247
Molten Metal Ejection from a Furnace, Fatal Injuries caused by, 458
Molten Metal, The Low-energy and Low-cost Route to, 309

N

Nodular Iron: Possible Structural Defects and their Prevention, 40
Non-ferrous Casting Facility, British Rail's In-house, 25
North West, Fifth Regional Survey discovers Optimism in the, 219

P

Patent Spherical Feeder-heads boost Yield of Railway Castings, 25
Patternmaking, The Electroforming Process for, 54
Patternmaking—The most Demanding of Skills, 61
Personal Protection in the Foundry Industry, Recent Developments in, 533
Picanol—a Belgian Foundry built on Quality, 507
Pollution Control Costs, Cokeless Cupola cuts, 162
Properties and Industrial Applications of S.-g. Iron, 399
Protective Equipment in the Foundry Industry, The use of Personal, 530

Q

Quality Consciousness, Diecastings Society Seminar discusses, 117

R

Rail Engineering, Is there a Future for Castings in, 17
Railway Castings, Patent Spherical Feeder-heads boost Yield of, 25
Railway Industry, George Blair plc, a Profile of a Company's Lifetime Involvement with Castings for the, 35
Robots ease the Founder's Burden, Manipulators and, 339
Robot Success Story, Investment Casting a, 33

S

Safety, LMFA produces Guide to Foundry, 376
Scahill Foundry, Induction Melting reduces Costs at, 162
Scrap, AOD Refining copes with Difficult Foundry, 355
Sheepbridge Material brakes Jet-car, 448
Silmor Dies, Continuous Casting Trials of, 365
Sorelmetal—a High-purity Low-manganese Pig-iron for the S.-g. Iron Industry, 88
South Wales Foundry Coke Works, Market Collapse closes, 336
Spheroidal-graphite: Cast-Irons—the First 35 Years, 395; Properties and Industrial, Applications of, 399; Iron or not S.-g. Iron, 931
Standard, Brass, Iron and Steel Limited, Cast-steel Bogie Production at, 37
Swindon Foundry caters for a Wide Range of Components, British Rail's In-house Non-ferrous Casting Facility, 26

T

Toolmaking Expertise is Key to Success at IMI Precision Diecastings, 191

WXYZ

Whitechapel's Bells ring Loud and Clear, 228
X-ray Facilities, Copal Foundries instal New, 534
ZA Alloys, International Conference discusses Properties and Applications of, 85
